Preface	ix
CHAPTER 1A. Diagnosing the cause of urinary incontinence	1
CHAPTER 1B. Uro-genital fistulas: causes, classification, early management and factors influencing outcome of repair.	5
1B.1 Causes and classification of genito-urinary fistulas	5
1B.2 Early management of fresh vesico-vaginal fistulas	7
1B.3 Factors influencing the outcome of fistula repair and case selection	8
CHAPTER 1C. Vesico-vaginal fistula: Standard vaginal repair approach	10
CHAPTER 2. Juxta-urethral and large fistulas involving the urethra	35
2.1 Non-circumferential	35
2.2 Circumferential without significant gap	39
2.3 Circumferential with significant gap	40
2.4 Overcoming size discrepancy in large fistulas	44
CHAPTER 3. Special and difficult fistulas	48
3.1 Pinhole VVF	48
3.2 High VVF: vesico-uterine	49
3.3 High VVF: vault	53
3.4 VVF with ureter outside the bladder	55
3.5 Fistulas with bladder stones	57
3.6 Double VVF	58
3.7 Pinhole VVF following previous repair	59
3.8 Around the corner VVF	61
3.9 Fistulas after radiotherapy	63

CHAPTER 4. Urethral re-construction and repair	65
4.1 New urethra made from the anterior vagina during VVF repair	65
4.2 New urethra made from anterior bladder	68
4.3 New urethra from anterior vagina without or following VVF repair	70
4.4 Fistulas anterior/ distal to the urethral orifice	73
4.5 Managing the torn urethra and urethral strictures (non-obstetric trauma)	74
CHAPTER 5. Abdominal repair of uro-genital fistulas	75
5.1 Intra-peritoneal repair of bladder fistula	75
5.2 Reinforcing the repair with an interpositional flap	80
5.3 Extra-peritoneal repair of bladder fistula	82
5.4 Combined vaginal and abdominal approach	84
CHAPTER 6. Post-repair incontinence	85
6.1 Causes and evaluation of post-repair incontinence	85
6.2 Conservative treatment of post-repair incontinence	88
6.3 Surgery: general	89
6.4 Surgery: repair of the pubo-cervical fascia	91
6.5 Surgery: fascial sling and other options	93
6.6 Urethral stricture	97
CHAPTER 7. Recto-vaginal fistulas and sphincter tears	100
7.1A RVF: trans-vaginal repair	103
7.1B RVF: trans-perineal repair	108
7.2 RVF: trans-vaginal repair: circumferential defects	109
7.3 RVF: trans-abdominal repair	110
7.4 RVF: trans-abdominal repair: circumferential defects	111
7.5 Anal sphincter tear repair	115
7.6 RVF with anal sphincter tear repair	121

CHAPTER 8. Problems with vaginal closure and flaps in fistula surgery	122
8.1 Flaps to close the vagina during fistula repair	122
8.2 Vaginal stenosis	127
8.3 Martius flap	129
8.4 Gracilis flap	130
CHAPTER 9. Ureteric fistula	134
9.1 Re-implantation of ureter	134
9.2 Double and ectopic ureters and vaginal re-implantation	139
CHAPTER 10. Urinary diversion and bladder augmentation	141
10.1 Mainz 2 pouch	142
10.2 Bladder augmentation	148
CHAPTER 11. Post-operative care and complications	151
11.1 Routine post-operative care	151
11.2 Complications and mortality in fistula surgery	158
APPENDICES	
APPENDIX 1 Equipment	161
APPENDIX 2 Surgical skills for fistula repair	163
APPENDIX 3 Routine protocol for VVF repairs	164
APPENDIX 4 Post-operative charts	166
APPENDIX 5 Nephrostomy and Nephrectomy	169
APPENDIX 6 Advice sheet post bladder augmentation and ileal conduit	172
APPENDIX 7 Operation report sheet	173
APPENDIX 8 Urethral Plugs	174
